Pompanette

Defining Excellence Since 1948

For more than 65 years

Pompanette has been producing sport fishing equipment and seating for boaters around the world. That is impressive, and we thank our loyal customers for their years of support. Pompanette was founded in a car port in Dania Florida in 1948 out of a need for superior fishing equipment and accessories. From those humble beginnings over 6 decades ago, our goal is still the same. We strive to build the finest built products in the industry, where innovation and top quality are paramount. Every product we build is meticulous engineered with the end user in mind. Whether it be an International Series fighting chair or a Platinum helm seat, you can rest assure that the utmost time and care has been put into our products from the development to final product delivery. Since 1948, our name has truly been on the line. Innovation, Quality and Customer Satisfaction. That is what Pompanette represents.

Pompanette Tables are custom built to "fit" the most decorative scheme of both sportfish vessels and cruising yachts.

Interior or exterior tables are available in oil, satin or hi-gloss finishes.

Pompanette showroom's display a variety of table configurations.

Sunburst design with dual fixed stainless steel stanchions

PLATINUM HELM SEATS

CONSTRUCTION

T7023
Signature helm seat with
Adjustable Stainless Steel
Footrest

Pompanette designed the Platinum Series helm seat line in conjunction with the specifications demanded by the world's foremost yacht designers. The Platinum's versatility stems from our objective to offer a uniquely practical helm seat with high tech innovative features, comfort, and a hint of European styling.

With it's unique combination of comfort and styling, the Platinum line has been widely embraced by the boat building community. It's versatility is illustrated in the fact that it is used on the brige of custom sport fish boats to the pilot house of mega yachts.

T9026
Platinum helm seat with
Decorative Piping and Teak
Ladder Backrest

All Platinum helm seats come standard with swing up armrest adjustment, reclining backrest and 360 degree seat rotation with positive locking placements.

- Seat Belt(s)
- Seat-back Chair Pocket(s)
- Multi-position Footrest(s)... Stainless Steel Only
- Armrest mounted controls
- Decorative Teak Ladder Backrest(s)

Pompanette

offers two distinctive fighting chair lines:
The International Series
and **The Tournament Series.**

Although both styles are identical dimensionally and share the same structural integrity, the manufacturing processes are very different. The traditional International line of chairs are hand crafted out of the finest TEAK woods available, while the low maintenance Tournament Series chairs are constructed out of an INJECTION MOLDED engineering grade resin. Both chairs lines share the same undeniable integrity, the same traditional styling and the same quality hardware (316L Stainless Steel Investment cast on 130-pound class chairs - Anodize cast Aluminum on 80-pound class chairs). The International line displays the natural beauty of teak wood protected by 20 or more coats of high gloss, ultraviolet protective finish. The Tournament Series comes standard with a high gloss white, polyurethane finish.

DID YOU KNOW that some companies simply fasten all the components on a 130lb fighting chair with wood screws? Not Pompanette! For decades we have held our chairs together the right way, with 22 stainless steel carriage bolts so that everything has through bolted harware to ensure you catch tournament winning fish for years to come. A great man once said, "If your not through bolted then your probably screwed."

FIGHTING CHAIRS

TOURNAMENT HELM SEATS

INT1500
International
Large Fighting Chair

Modern styling, superior strength, quality and proven performance make our International line of 130lb chairs the top choice of captains and custom boat builders world wide for over 60 years.

The International line of teak chairs use the finest, aged, natural teak available around the world. Our time honored, cross laminated, multi layered high gloss UV finishing process has been proven to withstand the harshest fishing conditions.

All fighting chairs have the option of a standard ladder backrest or a variety of multi functional rocket launchers. (see page 9)

Features

- 316L stainless steel, through bolted fastening hardware standard
- 4" boltless, polished 316L stainless steel pedestal and rod holders
- Contoured teak footrest and oversized teak spacer board
- 20 degree drop, multi positional footrest
- Multi position, quick change, flip up center gimbal
- All Pompanette fighting chairs are available in Jumbo, Large and small with all the same features

All International Series chairs are available in natural teak or painted any color.

- 20" x 20" or 22" x 22" seat board

TRITON UPGRADE

The Triton edition features the Platinum series stainless steel footrest attached to the seat board. This footrest has adjustable height and folds up when not in use. The chair is mounted on the Platinum series stainless steel Hi/Low pedestal to allow 360 degree rotation and height adjustment with ease.

See all of our products at pompanette.com

The International line of helm seats are the classic all teak ladder back chairs, made popular over 50 years ago to replicate the look of our hand crafted big game fighting chairs. Much like our fighting chairs, Pompanette teak helm seats are finished with 20 or more coats of high gloss, ultraviolet finish. The International helm seats are offered in Deluxe and Classic styles, and are available in standard or narrow sizes.

INT3610DELUXE International Deluxe helm seat with all teak adjustable footrest

Customized

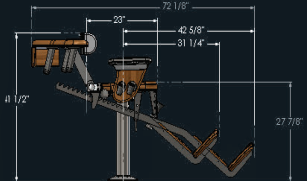

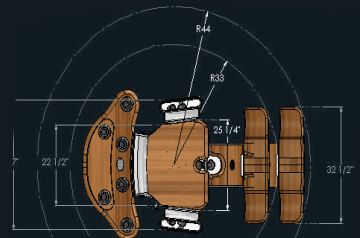

Pompanette chairs can be customized to fit any desired need and appearance. Carbon fiber offers a beautiful, modern look as seen here. These chairs can be inlayed in a variety of colors and placements under the high gloss finish. We also offer full carbon fiber construction for maximum, light weight performance, while still having all the features of the International Line to ensure strength and durability.

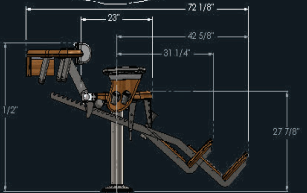

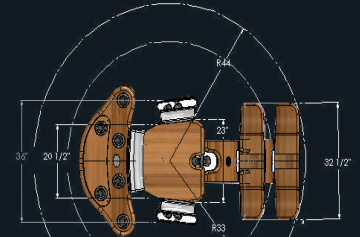

Get To The Corner

Pompanette offers a variety of Offset Pedestal sizes to make even the largest boats fishable. Our Innovative reverse goose neck style of Offset Pedestals allow the chair to have maximum swing to the corner and sides of large cockpits with ease. Unlike others, these pedestals are made from a solid piece of 316L stainless steel which is hydraulically bent to eliminate any welds for superior appearance and strength.

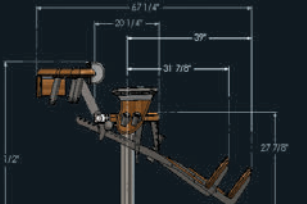

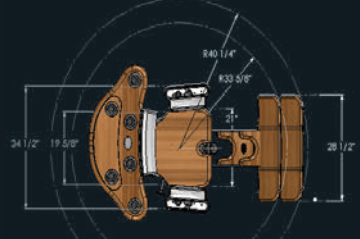

- Available in 12", 18" and 24" lengths
- Delrin bearing system on both ends of pedestal
- Sure locking adjustment on pedestal base allows chair to move and stay with ease

The Tournament Series

Fort Lauderdale, FL 954.525.6367 • Newport Beach, CA 949.650.0310

The Maximus is the definition of the modern teak ladder back helm seat. Crafted from the finest aged teak available, this chair has a plush, luxurious look and feel. There are no hard edges or fasteners seen anywhere on the structure of the Maximus. This chair is shaped and curved in every area, giving it a sophisticated look to match the styling of today's sport fish boats. This chair features a premium, fitted cushion set with contoured high quality foam to ensure that the Maximus is not only beautiful, but serves as a comfortable seat for hours of run time behind the helm. Much like our fighting chairs, Pompanette teak helm chairs are finished with 20 or more coats of high gloss, ultraviolet finish. This helm seat is available in standard or narrow sizes.

INT3799

NT8000TOUR
Tournament Series 80lb Fighting Chair

The Pompanette 80lb and Sailfish series of fighting chairs are the perfect light duty chair for every day fishing needs. These chairs are available in both teak and low maintenance Injection molded styles. Rated to handle tackle up to 80lbs, this line of chairs offers the same features as the 130lb class chairs, including all through bolted components, but is substituted with a 2 7/8" aluminum pedestal and bright dip, anodized aluminum hardware. The light weight and small turning radius of these chairs make them the ideal choice for smaller vessels with limited cockpit space.

All fighting chairs have the option of a standard ladder backrest, or a variety of multi functional rocket launchers. (see page 9)

Features

- Anodized aluminum, through bolted fastening hardware standard
- 2 7/8" flush mount, anodized aluminum pedestal
- Multi position, quick change, flip up center gimbal
- Screw less arm upholstery is available in a variety of materials and colors
- Pompanette 80lb and Sailfish chairs have the same dimensions as the 130lb small fighting chairs
- 2 Striking rod holders are standard, chairs are available with 1 or none.

INT8025TOUR
Tournament Series Sailfish Chair with Rocket Launcher upgrade

All 80lb and Sailfish series chairs are available in natural teak, or painted any color.

FIGHTING CHAIRS

ROCKET LAUNCHERS

Rocket Launchers have evolved into one of the most important pieces of equipment on today's sport fishing vessels. Rocket Launchers provide a centralized location in which anglers can monitor multiple rods at one time while kite fishing, or use their chair mounted Rocket Launcher to run the long outrigger lines in order to open up the cockpit. Chair mounted Rocket Launchers serve as a replacement option for the fighting chair's ladder backrest. They can be mounted to any 80 lb. or 130 lb fighting chair. Pompanette rocket launcher configurations range from the traditional 4 rod pedestal mount and chair launcher, to the intricate 10 rod style. No one in the industry has more Rocket Launcher offerings than Pompanette and we are happy to customize one to fit your needs.

Pedestal mount Rocket Launchers are free standing units that are securely fastened to the cockpit sole by means of a flush mount deck plate. The rocket launcher's deck plate mounting feature enables it to be easily removed when not in use. The boltless, 316L polished stainless steel pedestal is both beautiful and practical as it can be easily removed if space is needed. Standard height is 28" tall, and custom heights are available.

Compact 6 Rod Launcher.

ITEM # INT6000T
